SUMMARY

Frontend Developer experienced in building responsive web applications with React, Next.js, TypeScript, and JavaScript. Skilled in REST API integration, responsive design, reusable component development, and Git/GitHub workflows through individual and team projects.

TECH SKILLS

Frontend: JavaScript, TypeScript, React, Next.js, HTML5, CSS3, Responsive Design

Backend & Data: Node.js, MongoDB, REST API

Libraries & API Tools: TanStack Query, Axios, Postman

Development & Deployment: Git, GitHub, Vite, Vercel, Render, Figma

PROJECT EXPERIENCE

NoteHub - Note Management Application

Individual Project | Role: Frontend Developer

Technologies: Next.js, TypeScript, TanStack Query, REST API, CSS3

Live Demo: <https://09-auth-ruby-five.vercel.app/>

GitHub: <https://github.com/Narenzy/07-routing-nextjs>

- Built a responsive note management application with reusable React components using Next.js and TypeScript.
- Implemented dynamic routing with Next.js App Router for filtered note categories and individual note detail pages.
- Integrated a REST API with TanStack Query for fetching, caching, creating, and deleting notes.
- Implemented debounced search, filtering, pagination, and note categorization including Todo, Work, and Meeting.

React Movies - Movie Search Application

Individual Project | Role: Frontend Developer

Technologies: React, TypeScript, REST API, Vite, CSS3

Live Demo: <https://03-react-movies-dun-seven.vercel.app/>

GitHub: <https://github.com/Narenzy/03-react-movies>

- Developed a responsive movie search application in React and TypeScript for title-based search and result browsing.
- Integrated an external REST API and implemented asynchronous data fetching and result handling.
- Built reusable React components with TypeScript-based props and data types and deployed the application to Vercel.

Wedding Photographer - Portfolio Website

Team Project | Role: Team Lead

Technologies: JavaScript, HTML5, CSS3, Vite, Git/GitHub

Live Demo: https://narenzy.github.io/Wedding-Photographer_1/

GitHub: https://github.com/Narenzy/Wedding-Photographer_1

- Led a development team on a responsive single-page portfolio website, coordinating tasks and collaboration.
- Managed project structure, build configuration, Git/GitHub workflow, code integration, deployment, and integration issues.
- Developed the About section and contributed to responsive layouts, semantic HTML, styling, and UI consistency.

EasyPass - Team Frontend Project

Team Project | Role: Frontend Developer

Technologies: HTML5, CSS3, JavaScript, Vite, Git/GitHub

Live Demo: <https://nikita-shcherban.github.io/project-EasyPass/>

GitHub: <https://github.com/Narenzy/project-EasyPass>

- Collaborated with a development team on a responsive frontend website using HTML5, CSS3, JavaScript, and Vite.
- Developed the Contacts section and contact form, including structure, styling, responsive layout, and form validation.
- Implemented a mobile-first interface for mobile, tablet, and desktop and optimized images using WebP.

WORK EXPERIENCE

Renggli AG - CNC Machine Operator

Switzerland | 2026 - Present

- Operate CNC woodworking machinery and regularly identify and resolve machine-related errors during production.
- Monitor production quality and adjust workflows to support accurate and efficient manufacturing.
- Work closely with programming specialists to identify program-related issues, report errors, and resolve problems collaboratively.
- Support process optimization and coordinate with production colleagues to maintain reliable workflows.

Schilliger Holz AG - CNC Machine Operator

Switzerland | 2025 - 2026

- Operated and set up CNC woodworking machinery and resolved technical issues during production.
- Monitored product quality and supported packaging of finished products.
- Performed warehouse and logistics tasks, including loading and unloading materials according to production and loading lists.
- Collaborated with the production team to maintain an efficient and organized workflow.

EDUCATION

IT School GoIT - Full Stack Web Developer

2026 - Present | Full Stack Web Development

Kharkiv National Agrarian University named after V. V. Dokuchaiev

2018 - 2022 | Forestry Studies
